North Dakota Critical Access Hospitals

Jamestown Regional Medical Center

Reverend W.W.A. Keller, Lutheran Pastor, and the first board of directors sold bonds as the Lutheran Charities Association of Central North Dakota. Gilbert Horton was hired as the design architect. Ground was broken on October 1, 1928.

On Wednesday, October 30, 1929, the cornerstone for the new hospital was laid in place. This was one day after a dramatic drop on Wall Street. Construction was slowed to allow for further fund raising.

Due to the perseverance of Reverend Keller and his board of trustees, some of whom are listed here, Reverend Joseph Johnson, Mr. A. Johnson, Mr. F. G. Koehn, Mr. J.G. Bunge, Reverend Ernst, Mr. E. Frey, Mr. A. Foesch, Mr. Ben Gilbertson and Mr. F. Koehn, the north wing of the main building opened six years later on September 25, 1935.

Today

Jamestown Regional Medical Center opened on July 31, 2011 with the transfer of eight patients. The campus is on 50 acres just south of I-94 at exit 256. A helipad sits between the hospital and freeway offering quick transfer to Trauma 1 and 2 hospitals.
