Grafton, ND 58237

Phone: 701.352.1620

Fax: 701.352.1671

Web: www.unitymedcenter.com

Unity Medical Center and its predecessors, Grafton Deaconess Hospital, St Joseph's Hospital and Grafton Family Clinic have been a vital part of the Grafton community for more than 119 years. We were founded to serve a growing segment of our community in need of accessible services. Today, Unity Medical Center is an incorporated, community-owned and operated health care facility that recently completed a \$20 million, 36,000-square foot expansion to the current building which is 70 years old. The new space added a Surgery Center, Emergency Department, Rehab Services, dedicated patient floor with 11 private rooms, and a Rural Medical Education Center.

Our providers and nurses are educated to handle a wide variety of cases, putting their experience to work for you. In addition, Unity Medical Center has access to some of the area's most respected specialists. You don't have to leave home to get the care you deserve - healing happens right here in Grafton, with your friends at Unity Medical Center, where you can count on the highest level of medical care available, all day, every day.

North Dakota Critical Access Hospitals

Grafton is located in northeastern North Dakota, the heart of the Red River Valley, which comprises some of the richest soil in the world. The city, an attractive residential community, is a major retail trade center, and a primary market and distribution center for agricultural commodities produced in the surrounding area. Grafton's school system provides educational opportunities to students K-12. Grafton Parks and Recreation Department offers an extensive number of organized sports programs and activities for all ages. Facilities include a heated swimming pool, eight tennis courts, lighted football and track field, two supervised outdoor skating rinks and two parks. Other facilities include bowling, curling, baseball and softball, an armory gymnasium, winter sports arena, gun club and overnight camping.

This project is supported by the Medicare Rural Hospital Flexibility Grant Program at the Center for Rural Health, University of North Dakota School of Medicine & Health Sciences located in Grand Forks, North Dakota.
