Mountrail County Medical Center

Mission:

Mountrail County Medical Center will provide quality health care services to Mountrail County and the surrounding area including; primary medical care, emergency care, swing bed and clinic services.

The Mountrail Bethel Home is an ELCA Social Ministry Organization, which will provide skilled nursing care to chronically ill individuals, of all religions. In doing so, the Home realizes it has a mandate from our Lord Jesus, Himself to minister to his people by providing a 24 hour a day, seven day a week skilled nursing facility.

County: Mountrail

Mountrail County Medical Center (MCMC) is proud to be a part of Stanley’s integrated health care system. Located on the campus along with the hospital is a rural health clinic, nursing home, assisted living facility, and an aquatic center.

Mountrail County Medical Center and Mountrail Bethel Home together work to provide the area’s residents with high quality care for their healthcare needs. Along with our focus on quality of care, we focus on being an employer of choice. We work hard to make our facility a great place to work.

Together by focusing on quality of care and our employees, we are able to create an environment that is a positive place for our residents to live, our patients to get the care they deserve, and offer our staff a fulfilling career caring for others.

Services:

MCMC provides the following services directly:

- Acute care and observation services
- 24-hour emergency room services
- Swing bed
- Diet instruction
- Therapy - occupational, physical, aquatic, and speech
- Social services
- Lab, X-Ray, CT, EKGs
- Dermatology screening
- Mammograms

MCMC provides the following services through contract or agreement:

- Podiatry
- OB/GYN
- Orthopedics
- Hearing assessment
- MRI
- Ultrasound
- Sleep studies

Staffing

Physicians:	1

North Dakota Critical Access Hospitals

History

The dedication of the hospital was held June 12, 1952 coinciding with the 50th Anniversary of the city of Stanley. The hospital was operated by Lutheran Homes Society until July 1, 1955. In 1958 an addition was built on the south end of the hospital. The Stanley Medical Clinic Building was completed in 1959.

With a gift of \$100,000 from Mr. A. H. Nelson, the decision was made to build intensive care units, additional rooms, a conference room, and an enlarged lobby. Construction of this addition was complete in December 1971.

In the early 1990's Mountrail County Health Foundation was formed to assist in supporting the hospital. In 1997 the newly formed corporation, Mountrail County Medical Center, bought Stanley Community Hospital.

In 1998 a new program for rural hospitals emerged and created Critical Access Hospitals. This program changed the way the Mountrail County Medical Center was reimbursed by the Medicare program.

The decision was made to build a new downsized hospital facility and merge the operations for Mountrail County Medical Center and Mountrail Bethel Home. Operation of the new 11-bed hospital and clinic began on June 2, 2002.

The outcome of the fundraising efforts ultimately was very successful due to the support of the community, especially Mr. Raymond Rude, inventor of the Duraflex diving board, who donated a major portion of the cost of the project.

Also in 2002 through the generous donations of Mr. Rude, the addition of the Ina Mae Rude Aquatic Center was added to the campus that housed Mountrail Bethel Home and Mountrail County Medical Center. In 2014-2015, a CT room and additional ER space was added, the ambulance bay was enclosed, and the Clinic was remodeled and expanded to include more exam rooms and offices, a new conference room, and a larger lobby area.

Recreation

Located in northwest North Dakota, Stanley is mainly dependent on agriculture and oil as sources of economic stability. The city is an hour's drive from Minot, population 47,370, home to Minot Air Force Base and Minot State University. The Stanley school system offers instruction in both vocational and pre-college studies in addition to a regular curriculum. The area provides excellent hunting and fishing and includes Lake Sakakawea, one of North Dakota's largest recreational areas. Golf, parks, tennis courts, swimming pools, athletic fields, a movie theatre, and a bowling alley are also in the community.

With oil and gas exploration across the Bakken formation beginning in 2006, the community and county experienced significant growth in population and business.
