

Project ECHO[®] Management of Opioid Use Disorder Clinic

“Pharmacology of Opioids: what practitioners need to know?”

To access this presentation, go to:

<https://razor.med.und.edu/cme/selfserve/web/online-courses>

Presented by

Amy Werremeyer, PharmD, BCPP, North Dakota State University
Department of Pharmacy Practice College of Health Professions, Fargo, ND

Grant Lannoye, PA-C, Towner County Medical Center, Cando, ND

Facilitator: Dave Schmitz, MD

Upon completion of this program, the learner will be able to:

1. Describe actions of opioid receptors leading to therapeutic effects and side effects
2. Contrast opioid agonists, antagonists and partial agonists
3. Describe key pharmacokinetic and formulation differences amongst commonly used opioids
4. Manage clinically significant drug interactions associated with opioids

Who should attend?

All members of the healthcare team to include, but not limited to: physicians, NPs, PAs, nurses, behavioral health providers, social workers, pharmacists, medication assisted treatment (MAT) prescribing providers, and prescribing providers interested in becoming MAT providers.

Why attend? Because you will...

- Participate in case-based clinical discussions focused on the treatment of opioid use disorder.
- Gain up-to-date knowledge of opioid use disorder treatment through brief didactic presentations on topics of interest to learners.
- Improve your confidence in managing patients with opioid use disorder.
