

# Project ECHO<sup>®</sup> Management of Opioid Use Disorder Clinic

## “Standards of Care”

access this presentation, go to:

<https://razor.med.und.edu/cme/selfserve/web/online-courses>

*Presented by*

Mark Schaefer, Ed.S, M.S

*Facilitator: Andy McLean, MD*

**Upon completion of this program, the learner will be able to:**

- Understand of the foundation for the standards of care in Medication Assisted Treatment
- Identify strategies with clients that meet Federal guidelines, as well as contribute to client success
- Demonstrate an understanding of the implementation of MAT in multiple settings

### **Who should attend?**

All members of the healthcare team to include, but not limited to: physicians, NPs, PAs, nurses, behavioral health providers, social workers, pharmacists, medication assisted treatment (MAT) prescribing providers, and prescribing

**Why attend?** Because you will...

- Participate in case-based clinical discussions focused on the treatment of opioid use disorder.
- Gain up-to-date knowledge of opioid use disorder treatment through brief didactic presentations on topics of interest to learners.
- Improve your confidence in managing patients with opioid use disorder.
