

Project ECHO[®] Management of Opioid Use Disorder Clinic

“Screening, Brief Intervention, and Referral to Treatment”

To access this presentation, go to:

<https://razor.med.und.edu/cme/selfserve/web/online-courses>

Presented by

Parag Patel, MD

Medical Director, BrightView Health, Cincinnati, Ohio

Ben Bucher, RN, BSN, MSN, FNP-BC, MBA

Towner County Medical Center, Cando, North Dakota

Upon completion of this program, the learner will be able to:

1. Define SBIRT.
2. List key points when screening for drugs.
3. Identify components to include when creating treatment plans.

Who should attend?

All members of the healthcare team to include, but not limited to: physicians, NPs, PAs, nurses, behavioral health providers, social workers, pharmacists, medication assisted treatment (MAT) prescribing providers, and prescribing providers interested in becoming MAT providers.

Why attend? Because you will...

- Participate in case-based clinical discussions focused on the treatment of opioid use disorder.
- Gain up-to-date knowledge of opioid use disorder treatment through brief didactic presentations on topics of interest to learners.
- Improve your confidence in managing patients with opioid use disorder.
